

INDOOR SCORING

1. This is in Excel. Recommended that someone familiar with Excel do the scoring. If not contact us.

2. Enter name of competitor in column B

Dressage

3. Enter precision and paces scores in columns C and D and errors in Column F

4. It will calculate the penalty score itself

5. You will need to manually enter the placing

Cones

6. Put course length in column H and row 5. You only need to put the course length in once. It will automatically calculate the allowed time for all competitors

7. Put time on course for each competitor (you need to put it in in seconds, not minutes and seconds ie 1 min 23 seconds is entered as 83 seconds) in column J and errors in column L.

8. It will automatically calculate the rest of the cones for you.

9. You will need to manually enter the placing

Hazards

10. Put time in each hazard for each competitor (you need to put it in in seconds, not minutes and seconds ie 1 min 23 seconds is entered as 83 seconds) in columns P, R, T and V and errors in columns Q, S, U, and W.

11. It will automatically calculate the rest of the hazards for you.

12. You will need to manually enter the placing

Overall

13. It will automatically calculate the overall score for you.

14. You will need to manually enter the overall placing.
